President's

Corner

Hello Everyone,

What an incredible turnout we had at our Spring Symposium last month! With 80 registrations, it proved to be one of our largest symposiums yet. I want to extend a sincere thank you to all our presenters, sponsors, attendees (both in person and online), our Twin Tiers board and Rob VanSkiver our Symposium Chair. Everyone's efforts, contributions, and attendance made this event possible.

UP NEXT – Our May Meeting (5/21/24). This will be a Hybrid meeting at the Meier Supply HQ Office in Conklin. Special thanks to the Meier Supply team for sponsoring this event! At this meeting Chemours Rep, Mark Love, will be presenting on Refrigerants. Mark has over 36 years of experience in the chemical industry. He has spent the last 17 years working for DuPont/ Chemours in the HVAC industry. He has extensive knowledge on this topic and will be going over new regulations and EPA compliance requirements. Details and registration: <https://twintiersashrae.org/meetinginfo.php?id=38&ts=1713878238>

GOLF TOURNAMENT!! – JUNE (6/18/24) Mark your calendars. – Golf Tournament and Clambake at The Links at Hiawatha Landing. Captain & Crew format with a shotgun start at 10:30am. What better way to kick off the summer than with a golf tournament, drinks, prizes, raffles, putting contest, and a delicious dinner to be served around 4:00pm. Details and registration: <https://twintiersashrae.org/meetinginfo.php?id=39&ts=1712942396>

We have some exciting opportunities to become part of our ASHRAE Twin Tiers' board and committees. If you are interested in becoming more involved in the ASHRAE community, looking to extend your network, or are just curious to learn more, don't hesitate to connect with myself or any Twin Tiers member.

Our board of governors are focused on enriching your experience as members, so we are always open to feedback on our current events and how we can better serve you. Feel free to reach out to any of us if you have ideas or would like to get involved.

Thank you all for your support and we look forward to seeing you next!

Sincerely,
Dana Ehrets

CHAPTER TIMELINE 2023-2024

JANUARY 16, 2024 – CHAPTER MEETING

THEME: Sustainability ASHRAE Distinguished Lecturer and Society Past President

TIME: 12:00 (noon) PM

LOCATION: Virtual Meeting

TOPIC: Decarbonization (Electrification) for Hydronic Heating System (1 PDH)

SPEAKER: Mick Schwedler, PE, FASHRAE, LEED® AP BD+C, ASHRAE Distinguished Lecturer and Society Past President

Company: Trane

Position: Staff Applications Engineer

Mick has been active in the development and support of HVAC systems for Trane since 1982. As an applications engineer his areas of expertise include system optimization (in which he holds patents), chilled water and geothermal heat pump system design, and electrification of heating in hydronic systems. His primary activities “Feed the Roots” by assisting engineers in appropriate application of products and systems in buildings, and system education through publications, blogs and presentations. He has provided technical systems education to tens of thousands of engineers through Trane’s Engineers Newsletter Live series, and ASHRAE webcasts. Mick has also given in-person and virtual technical seminars throughout the world, and published many articles within the industry. Prior to his work with Trane, Mick received his MSME from the University of Wisconsin Solar Energy Laboratory and BSME from Northwestern University.

Mick served as 2021-2022 ASHRAE President. He is an ASHRAE Fellow, recipient of ASHRAE’s Exceptional Service, Distinguished Service, and Standards Achievement Awards, and was Chair of SSPC 90.1-2010. Mick also Chaired the Advanced Energy Design Guide Steering Committee and was on project committees for the 50% Hospital and Office Buildings AEDGs.

SUMMARY: Decarbonization (Electrification) for Hydronic Heating System

Many people have been educated on what decarbonization is, as well as its goals. This presentation delves into how hydronic systems using heat recovery chillers, heat pumps and chiller/heaters can be designed, piped, optimized and controlled in order to provide heat efficiently. Also covered are the impact of hot water and outdoor air temperatures, methods to simplify system design and operation, the importance of ensuring building operators and facility managers can operate the systems as intended. The goal is to reduce environmental emissions and make the system as simple as possible, but not simpler.

Twin Tiers Annual Golf Tournament!

Twin Tiers Chapter (<https://twintiersashrae.org/>)

2024 Golf Tournament & Clambake - Tuesday, June 18, 2024

Golf shotgun start at 10:30 AM & Clambake at approx. 4:00 PM

Golf Tournament:

The Links at Hiawatha Landing

2350 Marshland Rd, Apalachin, NY 13732 • (607) 687-6952

- ❖ Captain & Crew format. Includes greens fees, two carts, lunch at the turn, soft drinks, keg beer & prizes for winners. (Foursomes only)
- ❖ We will also be holding a putting contest to raise money for the chapter Research Promotion. The purchase of a golf ticket includes entry to the putting contest and \$20 per golfer will be put toward the chapter RP goal.

Clambake:

The Links at Hiawatha Landing

2350 Marshland Rd, Apalachin, NY 13732 • (607) 687-6952

- ❖ Menu: The menu will include thin sliced ribeye steak sandwiches with sautéed onions/peppers/mushrooms, chicken speidies, salt potatoes, corn on the cob, garden salad, soft drinks, beer and Two Dozen Steamed Hard Shell Clams Per Person
- ❖ Great Door Prizes and a 50/50 raffle to benefit the Twin Tiers ASHRAE Chapter

Captain's Name & Company: _____

For tickets or more information, contact:

Travis Fisher
(607) 972-1342
tf222@cornell.edu

Package	Early Bird Price (on or before 5/31)	Regular Price (After 5/31)
Golf only (4 person team)	\$300	\$325
Golf, 4 Clambake tickets, Putting Contest for 4	\$575	\$625
Golf, 4 Clambake tickets, Hole Sponsor, Putting Contest for 4	\$650	\$725
Hole Sponsor (includes 1 clambake ticket)	\$115	\$130
Clambake Tickets	\$60	\$70

Note: All forms and payment must be received by June 11, 2024

Payment & Registration may be completed online @

<https://twintiersashrae.org/> or you may send the registration form and a check to confirm your reservation.

Checks should be made payable to Twin Tiers ASHRAE.

Please mail checks to Travis Fisher, 51A Goodrich Road, Owego, NY 13827

TRAINING

New York State Professional Engineers Self Study Ethics PDH Available!

As a licensed professional in New York State, it is your professional responsibility to know the legal and ethical requirements governing the practice of your profession and to be alert to changes in those requirements. The New York State Board for Engineering and Land Surveying, in an effort to help you stay abreast of your professional responsibilities, has developed this short, self-study educational activity in ethics.

This educational activity is based on the New York State Education Law Articles 130 and 145, the Rules of the Board of Regents Parts 1, 3, 17, 18, 28, 29, 31, and the Regulations of the Commissioner of Education Parts 59 and 68. It is strongly recommended that, prior to taking the self test, you review these [foundational materials](http://www.op.nysed.gov/prof/pels/pelaw.htm) (<http://www.op.nysed.gov/prof/pels/pelaw.htm>) on the engineering web site.

Once you have reviewed the foundational materials, proceed to complete the self test below. When you have completed the self test, click the "Get your score" button at the bottom of the page. You should print this screen and save it as evidence of satisfactory completion of this educational activity. A score of 90% or greater will allow you to claim 1 Professional Development Hour (PDH) of educational activity credit in ethics ONCE in each three-year registration period. Retain your printed screen for no less than 6 years from the date of completion.

Take Your PE Ethics Self Test Here!

ASHRAE Certification

Advance Your Career Today!

With already more than 3,000 certifications earned to-date, ASHRAE programs were founded to meet the industry needs of today and provide value to thousands of built-environment professionals, employers and building owners.

ashrae.org/certification

American Society of Heating, Refrigerating, and Air-Conditioning Engineers, Inc.

Certified HVAC Designer (CHD)

- The CHD certification validates competency of an HVAC Designer, working under the responsible charge of an engineer, to design HVAC systems to meet building/ project requirements, including load calculations, equipment selection and sizing, mechanical equipment room design, duct and piping design and layout for the development of HVAC plans for permit and construction.
- In an Industry Need survey, ASHRAE member respondents who influence the hiring decision agree the CHD is a tool to identify competent new hire prospects.

High-Performance Building Design Professional (HBDP)

- The HBDP certification validates competency to design and integrate sustainable HVAC&R systems into high performing buildings.
- Today's building design market requires use of ground-breaking technologies in new and existing structures to meet the need of building owners.

Building Energy Modeling Professional (BEMP)

- The BEMP certification validates competency to evaluate, select, implement, calibrate and interpret the results of energy modeling software when applied to new and existing building and systems energy performance.
- The BEMP certification complements ASHRAE's Building Energy Quotient (BuildingEQ) program by helping to ensure that only qualified practitioners can submit As Designed Workbooks to receive building ratings from ASHRAE.

"Because of the high level of expertise, professionalism and ethics demonstrated by ASHRAE, achieving certification under their established requirements implies one of the highest levels of competence and knowledge available in the industry."

Jeffrey G Ross-Bain, BCxP, BEMP, Ross-Bain Green Building, LLC

American Society of Heating, Refrigerating, and Air-Conditioning Engineers, Inc.

Building Commissioning Professional (BCxP)

- The BCxP certification validates competency to lead, plan, coordinate and manage a commissioning team to implement commissioning processes in new and existing buildings.
- Recognized by the U.S. Department of Energy (DOE) as meeting the Better Buildings Workforce Guidelines (BBWG).

Healthcare Facility Design Professional (HFDP)

- The HFDP certification validates competency to incorporate standards, guidelines as well as unique healthcare facility requirements and design principles in HVAC system design.
- Advances in technology, shifting environmental requirements and an increasingly older population have created a critical need for expansion and renovation of healthcare facilities.

Building Energy Assessment Professional (BEAP)

- The BEAP certification validates competency to assess commercial building systems and site conditions, analyze and evaluate equipment and energy usage, and recommend strategies to optimize building resource utilization.
- The BEAP certification is integral to ASHRAE's Building Energy Quotient (BuildingEQ) program by helping to ensure that only qualified practitioners can submit In Operation Workbooks to receive building ratings from ASHRAE.
- Recognized by the U.S. Department of Energy (DOE) as meeting the Better Buildings Workforce Guidelines (BBWG).

Operations & Performance Management Professional (OPMP)

- The OPMP certification validates competency to manage facility operations and maintenance to achieve building performance goals, including those related to indoor environmental quality, health and safety.
- Staying current with the latest facility operation strategies and technologies can reduce energy use in buildings by 10% to 40%.

American Society of Heating, Refrigerating, and Air-Conditioning Engineers, Inc.

The Benefits of an ASHRAE Certification

Value for Certification Earners

- ✓ Validation of specialized knowledge, skills and ability
- ✓ Unparalleled recognition
- ✓ Career development

Value for Employers

- ✓ Identify and recruit qualified professionals
- ✓ Elevated credibility among customers
- ✓ Greater employee job satisfaction

Easy Steps to ASHRAE Certification

1. Read the *Candidate Guidebook*

Visit ashrae.org/certification and download the guidebook for the program in which you are interested.

2. Complete the Application

The ASHRAE Member discounted application fee is \$395 (non-member – \$545).

3. Schedule an Examination

Certification examinations are offered at over 300 conveniently located computer-based testing centers worldwide.

4. Renew the Certification

Each certification is renewable every three years.

Certification@ashrae.org | 1-678-539-1105

Twin Tiers Chapter– Employment Opportunities

Stantec Mechanical Engineer Job Opportunities

Stantec's diverse project portfolio encompasses multiple sectors including but not limited to; Commercial, Hospitality, Multi-Family Highrise, K-12/Higher Education, Transportation, Federal, Industrial, Science and Technology, and Infrastructure. Our collaborative teams enjoy working directly with clients as valued and respected project team members.

Stantec Buildings is on a mission to become the world's leading integrated design practice. Our architects, engineers, interior designers, sustainability specialists, and technologists are passionate about the power of design. We take an innovative, collaborative approach to projects, sharing a common belief that sustainable design for the built environment can make the world a better place for future generations.

Take the first step towards designing your career with Stantec, and Join an award-winning team that is passionate to bring transformational project solutions to life.

1. 3-5 Year Junior Mechanical Designer/Engineer:

Stantec is seeking mechanical designers and engineers to work with general supervision and direction by our senior mechanical engineer staff, with the potential for growth. You will participate in the evaluation, recommendation, and specification for engineered systems or products for a project verifying compliance with applicable codes and engineering standards / practices. Your role as a Mechanical Designer on our team would be to work independently in the design of heating, ventilation, and air conditioning (HVAC) systems for assigned projects, through all phases of the project lifecycle. Base work/office location is flexible.

For more details on this opportunity and responsibilities and preferred capabilities, education, and experience regarding this opportunity, please refer to the following link:
[Mechanical Engineer - Stantec Careers \(selectminds.com\)](https://selectminds.com/careers/mechanical-engineer-stantec).

2. 7+ Year Mid-Level Mechanical Designer/Engineer:

Stantec is seeking a Mid-Level Mechanical Engineer to complement our team, with the potential for growth and leadership opportunities. You will work closely with the US Northeast Buildings Engineering group, to continue our business growth and enhance design excellence in the execution of projects through mentorship, leadership and interdisciplinary collaboration. Your role as an engineer on our team would be to proactively lead the design of heating, ventilation, and air conditioning (HVAC) systems for assigned projects, through all phases of the project lifecycle. This is a great opportunity for a Mechanical Engineer to build upon successes and experiences gained thus far in their career. A successful candidate for this position we use their working knowledge and collaborative skills to enhance, lead, and grow into an integral part of the success of the team around them. Base work/office location is flexible.

For more details on this opportunity responsibilities and preferred capabilities, education, and experience regarding this opportunity, please refer to the following link:
[Mechanical Engineer - Stantec Careers \(selectminds.com\)](https://selectminds.com/careers/mechanical-engineer-stantec)

American Society of Heating, Refrigerating, and Air-Conditioning Engineers, Inc.

Twin Tiers Chapter– Employment Opportunities

Stantec Mechanical Engineer Job Opportunities (Cont.)

2. 15+ Year Senior Mechanical Designer/Engineer and Project Management Lead:

The role of Senior Mechanical Engineering and Project Manager Lead is to guide our Mechanical team and manage the design and delivery of small to large projects and to develop and maintain relations with current and future clients within our business line. You will represent project work in client meetings and be part of teams to cultivate relationships with client organizations.

As a Senior Engineer you will focus on the design, construction, operation and maintenance of mechanical systems for engineering projects of a complex nature. You would provide leadership and training to more junior professional and technical staff and provide technical guidance to less experienced professionals or technicians assigned to work on a common project. Intermittently, you would guide investigations and advise on unusual and difficult problems encountered in the mechanical engineering practice, and to use and apply advanced engineering principles and have a working knowledge of advanced technical research.

Your role would be to lead and manage our team in the design of Heating, Ventilation, and Air Conditioning (HVAC) and other mechanical systems, with a strong understanding of Plumbing and Fire Protection systems, through all phases of the project lifecycle. As a Senior Mechanical Lead, you would assist, and oversee staff on complex projects, evaluate, select, specify, and engineer all mechanical engineered systems or products for a project. This is a great opportunity for a Senior Mechanical Engineering and Project Manager Lead to grow and develop their career. A successful candidate for this position will use their working knowledge and collaborative skills to enhance, lead, and grow into an integral part of the success of the team around them. Base work/office location is flexible.

For more details on this opportunity and responsibilities and preferred capabilities, education, and experience regarding this opportunity, please refer to the following link:

Business Card Advertising 2024

The Twin Tiers Chapter of ASHRAE can accept business card advertising with the following provisions:

- The company must be associated with HVAC&R technology.
 - The company must be a local service provider, a local manufacturer, or a manufacturer's representative serving the area.
- If you aren't sure, just ask.

We are now accepting business card advertisements for the newsletters that will be published in 2024. This is a great opportunity to get your name and business in front of the over 250 subscribers to our chapter newsletter. The price for the newsletter only is \$50 for the entire 2024 year.

Business card ads can be placed using a scanned electronic copy of your business card, or you can mail your card to me (please no staples or paper clips).

We welcome your feedback!

ASHRAE Mission Statement

ASHRAE will advance the arts and sciences of heating, ventilation, air conditioning, refrigerating and related human factors to serve the evolving needs of the public and ASHRAE members.

Ethics Requirement for PE

PE's in NYS will be required to have one hour of Ethics within their 36 hours of continuing education for registration periods beginning August 1, 2011 and after.

ASHRAE Vision Statement

ASHRAE will be the global leader in the arts and sciences of heating, ventilation, and air conditioning.

ASHRAE will be foremost authoritative, timely, and responsive source of technical and education information, standards and guidelines.

ASHRAE will be the primary provider of opportunity for professional growth, recognizing and adapting to changing demographics, and embracing diversity.
